

Mission

We are an employee-owned company with a social mission:

- 20% of our profits go to programs that provide **food, housing, AI training, and career opportunities** for vulnerable people in **poverty-stricken** countries.
- We **help** individuals transition out of poverty into **sustainable, dignified careers**.
- Our **vision** is to make AI available to all businesses while also using it as a force for good.

AI is no longer a question of if, but when. Our products let you start rapidly, safely, and affordably — unlocking the same value big corporations enjoy, at a price point built for every business.
